## COMPANY SUMMARY OF COVER (page2)

### What's NOT included in the Equip sme Health Insurance Plan?

Like any plan that includes insurance benefits, the Equip sme Health Insurance Plan is about protecting you if the unexpected happens, and to help put things right. This means that the plan can't cover everything and so we have highlighted key exclusions here that apply to the Physio, Diagnosis and Treatment insurance cover only (ie, they do not apply to the GP access, Health Check and Stress Support benefits).

Brand new medical conditions are covered as long as they continue to respond to treatment but the plan won't cover the Physio, Diagnosis or Treatment cost of any health problem that anyone included under the plan already had symptoms of in the last three years – what we call "pre-existing conditions". A pre-existing condition is any disease, illness or injury that members:

- have received medication, advice or treatment for in the three years before the start of cover, or
- have experienced symptoms of in the three years before the start of cover; whether or not the condition was diagnosed.

When a newborn baby is added to the policy, if that baby was born after fertility treatment, following assisted reproduction (such as IVF), or has been adopted, the definition of pre-existing condition is extended to also include any medical condition present from birth.

This means that if Physio, Diagnosis or Treatment is required members may need to provide more detailed information to make sure the condition isn't pre-existing. In some cases, a further medical information form may need to be completed. Or if a member's NHS GP needs to send more details about the medical condition, the member may need to give consent for access to their medical records.

Other important exclusions to be aware of include:

- Treatment of Cancer – the plan does not cover the treatment of cancer. However, members have cover up to the point at which cancer has been diagnosed so we can help find out what's wrong fast
- Pregnancy and childbirth – but the plan will pay to treat certain medical conditions that arise during pregnancy (if Solo Plus cover level selected)
- Ongoing, recurrent and long-term conditions – we call these "chronic conditions"
- Treatment received outside the UK
- Mental health conditions – the plan does not cover the treatment of these conditions but with Stress Support included, we can help with telephone and face-to-face counselling

We've listed the most significant things here. Full contractual information regarding the insurance cover and non-insurance services is provided in more detail upon acceptance of your Equip sme Health Insurance Plan.

### How can the plan be cancelled?

You can cancel the plan without charge during the cooling off period (14 days from the start date in the company schedule or the day on which the plan documentation or renewal documentation is received, whichever the later). After the cooling off period, we will charge the premium due from the start date or renewal date to the cancellation date.
